LEG3ND SERIES

This is for the passionate, the explorers for whom diving is more than a sport, it is a state of mind. Here is the third generation of Legend. The most advanced, innovative and ergonomic generation of regulators ever created. These masterpieces of engineering mark the plunge into a new way of discovering by ensuring the highest breathing comfort whether you are exploring in cold or warm water.

First Stage

- When the first stage is not connected to a cylinder valve, the Auto Closure Device (ACD) keeps the inlet shut to protect the first stage internal parts from contamination and corrosive water.
- Preserves the internal lubrication.
- Keeps the inlet filter clean and dry.
- Safer for elevated percentages of oxygen.
- Exceptional cold-water performance is achieved by modernizing Aqua Lung's three anti-freeze properties:

1. Where there's no moisture, there's no ice: The LEG3ND's integrated dry chamber keeps inner components clean and dry by isolating them from the outside environment.
2. Deep ribs create a large heat exchange surface area that helps to prevent ice forming on the mechanism (+30% vs Glacia / +70% vs Legend 2)
3. The new overmolded cap delays ice forming over the external diaphragm.

- Auto-Balanced (also known as Over-Balanced)
- Progressive increase of the working pressure to maintain optimum breathing efforts: Depending on the diver's depth, the working pressure of the first stage is automatically elevated to counteract the increased breathing air density.
- Ergonomically shaped DIN and YOKE screws made of a bi-material "Soft Grip" surface provide a better hold when installing or removing the first stage – especially with cold hands.
- Channelled YOKE screw to prevent water retention.
- Specialized ACD Dust cap attached to the regulator body to protect the inlet fitting and the ACD system from impacts or damage.
- Perfectly positioned HP and MP ports provide optimal hose routing.

Second Stage

- New front cover opening channels allow water to flow sideways over the diaphragm
 - Radial openings to prevent freeflows when diving in stronger currents
 - Openings widened to reduce peak inspiratory flow by an impressive 20%.
- New overmolded exhaust cover made of elastomer with a "soft touch" effect.
- Overmolded air purge
 - Wide surface area makes regulator purging easier
 - Purge depth controller optimizes air flow with minimal effort
- Patented Comfobite mouthpiece reduces jaw fatigue and secures the second stage more comfortably.
- Detachable and reusable mouthpiece clamp allows a quick and simple tool-free mouthpiece change without plastic waste.
- The enlarged heat exchanger helps to prevent freezing of the second stage mechanism
- Air channel deflector
 - Directs the air flow evenly during the inhalation phase
 - Streamlined bi-material deflector lowers the exhalation effort
- Flexible and lightweight (just 132g) Aqua Flex hose with dual protectors

AQUALUNG LEG3ND ELITE

The LEG3ND ELITE gives divers unprecedented capabilities by providing perfect precision and enhanced ergonomics at your fingertips. Advanced divers appreciate the independent micro adjustments to fine-tune their own individual breathing preferences.

Inhalation adjustment knob: Allows the diver to precisely adjust the opening effort sensitivity.

- At "MIN" position the assistance of the valve is minimized, resulting in lower opening effort sensitivity.
- At "MAX" position the assistance of the valve is maximized, resulting in higher opening effort sensitivity.

Overmolded with "soft touch" elastomer, the ergonomically designed switch perfectly controls the venturi effect, either allowing or containing a natural freeflow.

AQUALUNG LEG3ND MBS

The first inhalation under water is the start of a new adventure. The revolutionary combination of venturi effect and inhalation effort adjustment is natural and intuitive. Aqua Lung's Master Breathing System allows divers to control both in one simple rotation. All depths, all conditions, all dives - MBS will adapt.

The Master Breathing System is a new way to adjust the comfort on a second stage. The diver can perfectly master breathing comfort in one simple rotation. The MBS is a unique combined adjustment, it controls the inhalation effort and the venturi effect automatically.

With the MBS on minimum position (only one full rotation): The spring is fully compressed and the inhalation effort is about 3 mbar higher. A free flow is contained when the venturi blade restricts the injection outlet.

With the MBS on maximum position : The injection of the airstream is unrestricted and the flow is maximized.

REF	DESIGNATION	RETAIL
RG148002	LEG3ND MBS Yoke	31,150 THB
RG148003	LEG3ND MBS DIN	31,150 THB
RQ132113	Pack LEG3ND MBS Yoke + Octopus RG148002 + RS119005	37,400 THB

AQUALUNG LEG3ND

When performance is your highest priority, LEG3ND is the answer. The LEG3ND shares the same breathing characteristics with the LEG3ND ELITE and LEG3ND MBS. The familiar venturi switch now features an updated and ergonomic design. Because your sensations and emotions are amplified in the underwater world, you can focus on what matters: feeling free.

NEW in 2020
Overmolded with "soft touch" elastomer, the ergonomically designed switch perfectly controls the venturi effect, either allowing or containing a natural freeflow

RG148001	LEG3ND DIN	26,700 THB
RQ132115	PACK LEG3ND YOKE + OCTOPUS RG148000 + RS119005	33,200 THB

AQUALUNG LEGEND OCTOPUS

The LEG3ND Octopus is the perfect compliment to the Legend regulator family. The high-visibility yellow color makes it easy to find when it's needed most, while the pneumatically-balanced second stage results in smooth, easy breathing. A venturi switch helps prevent free-flow at the surface. The opening effort is pre-set in a fixed position so the diver doesn't have to worry about adjusting the regulator during the dive. Excellent cold-water performance due to highly efficient heat exchanger surrounding the valve.

REF	DESIGNATION	RETAIL
RS119005	Octopus Leg3nd - Balanced	8,200 THB

AQUALUNG MIKRON ACD

Aqua Lung has once again raised the bar on regulator design with the Mikron – the smallest and lightest weight regulator in the line. Weighing in at just 26 oz. (din) and 31 oz. (yoke), this regulator is perfect for the travelling diver. Even more amazing is the performance is not sacrificed by the extreme compactness of the regulator. Its balanced first and second stages produce exceptional breathing performance.

- Compact dimensions and low weight blend comfort with a unique diving experience
- A braided hose, weighing less than 5 oz., provides flexibility, comfort and excellent packability
- The first stage is a balanced diaphragm type that sports 2 HP ports (7/16) and 4 MP ports (3/8)
- The second stage has an adjustment knob that allows the diver to optimize the opening effort. In the "Mini" position, the opening effort is increased, which is ideal for avoiding free flows at the surface. In the "Maxi" position, the inhalation effort is reduced, reducing the work of breathing
- The reduced size and weight makes the Mikron the ideal choice for travellers and young adults

AQUALUNG MIKRON OCTOPUS

Whether you own a Mikron regulator or not, this travel-friendly octopus is the one you want to take on your next dive trip.

- Pneumatically-balanced octopus is ideally suited for over-balanced first stages
- An inhalation effort adjustment knob allows you to desensitize the unit while it is stowed for the dive preventing unwanted freeflow
- High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency

RS125111	Octopus Mikron - Balanced	0.3 kg	6,890 THB

AQUALUNG CORE / CORE SUPREME

The CORE regulator's amazing breathing, which is rated as "superior" on the ANSTI breathing machine, coupled with its generous features, at an attractive midrange price, provides the best value of any regulator offered today. The CORE comes standard with Aqua Lung's unique, patented, auto-closure device (ACD) which seals water out.

- Auto Closure Device (ACD) - keeps corrosive water out of the first stage inlet by automatically closing as the CORE is removed from the cylinder valve
 - This prevents internal lubrication from washing away
 - Safer for elevated percentages of oxygen
- The balanced diaphragm first stage provides superior, consistent performance
- The pneumatically-balanced second stage results in smooth, easy breathing
- Available in yoke (3300 psi / 232 bar max) or din (4350 psi / 300 bar max)
- The T-shape of the first stage optimizes the location of the 4 MP ports and 2 HP ports
- Uses parts that are common to other Aqua Lung models for easier servicing
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- Compatible with EAN 40 new, out of the box
- Equipped with Aqua Lung's patented Comfo-bite™ mouthpiece along with a reusable mouthpiece clamp
- The Supreme cold water version is resistant to freezing when diving in waters colder than 50°F / 10°C
- The Supreme version is equipped with an environmental dry chamber on the first stage and a lip shield on the second stage.

REF	DESIGNATION	WEIGHT	RETAIL

RQ131111	Pack CORE Yoke + Octopus RG129111+RS138111		20,300 THB

AQUALUNG OCTOPUS CORE

The CORE octopus provides the same great performance as the CORE primary second stage. Thanks to its highly efficient heat exchanger, it is up to the rigors of cold water diving. With its 39" hi-viz yellow hose and front cover, it will be ready to provide life-sustaining air in an out-of-air situation.

- The CORE octopus is pneumatically-balanced. This results in smooth, easy breathing
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- Includes 39" yellow hose and yellow front cover

AQUALUNG TITAN

Incorporating all the best features of its predecessors, this third generation Titan has new innovative features resulting in a more comfortable, lighter-weight and easier-breathing regulator. From the consumer that wants performance at an affordable price to the dive center that wants a rugged and easy to maintain regulator, the Titan delivers.

FIRST STAGE:

- Uses a balanced-diaphragm mechanism resulting in ease-of-breathing and consistent performance while environmentally protecting the internal parts
- The first stage is T-shaped as opposed to its in-line predecessor making it more compact and providing optimal hose routings
- Features 2 HP ports and 4 MP ports
- The unique, forged body of the first stage uses less brass making it more compact and lighter weight
- The outer skin provides impact protection as well as a cosmetic flair
- Now uses a conical filter for better filtration
- Accepts an optional ACD (auto-closure device) system
- Improved yoke screw eliminates trapped water
- Compatible with EAN 40 new, out of the box

SECOND STAGE:

- New, mid-size, high performance demand valve second stage
- Easy-to-grip venturi knob stops unwanted freeflow when the regulator is out of your mouth
- Can easily be reversed from right-handed to left-handed configuration by an authorized Aqua Lung dealer without additional parts
- Comes with Aqua Lung's Comfo-bite™ mouthpiece which reduces jaw fatigue
- A grid built into the exhaust tee creates finer exhaust bubbles for less noise and more stability
- All new, easy purge front cover
- A new, reinforced polycarbonate material makes this second stage stronger than its predecessor
- The side openings on the front cover prevent freeflow when facing into currents or riding a scooter

REF	DESIGNATION	RETAIL
RG128111	Titan, Yoke	13,350 THB
RQ133111	Pack TITAN + Octopus RG128111 + RS137111	17,300 THB

AQUALUNG CALYPSO/TITAN OCTOPUS

- Mid-size, high performance octopus to compliment the Titan and Calypso regulators
- High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency
- The venturi lever prevents unwanted freeflow when not in use
- Can easily be reversed from right-handed to left-handed configuration by an Authorized Aqua Lung dealer without additional parts
- All new, easy purge front cover

REF	DESIGNATION	RETAIL
RS137111	Octopus Calypso / Titan Classic	4,930 THB

AQUALUNG CALYPSO CLASSIC

Aqua Lung is proud to introduce the fifth generation Calypso regulator! This simple design, with its attractive price, makes this regulator a popular choice for dive lockers as well as new divers. It is compact, lightweight, easy to service and it breathes like a regulator that costs much, much more.

The orange color accents makes it a logical choice for Aqua Lung Partner Centers and coordinates well with the Wave BC.

FIRST STAGE:

- In-line, high-flow piston design means fewer components, excellent reliability and easy maintenance
- Large diameter of piston guarantees a more stable medium pressure output
- The 6 large holes in the end cap results in easier cleaning as well as better thermal exchange, thus improving the freezing resistance
- Features 1 HP port and 4 MP ports
- Compatible with EAN 40 new, out of the box

SECOND STAGE:

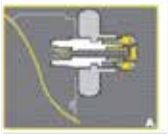

- New, mid-size, high performance, demand valve second stage
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- Can easily be reversed from right-handed to left-handed configuration by an authorized Aqua Lung dealer without additional parts
- Comes with Aqua Lung's Comfo-bite™ mouthpiece which reduces jaw fatigue
- A grid built into the exhaust tee creates finer exhaust bubbles for less noise and more stability
- All new, easy purge front cover
- A new, reinforced polycarbonate material makes this second stage stronger than its predecessor
- The side openings on the front cover prevent freeflow when facing into currents or riding a scooter

When the first stage is not connected to a cylinder valve, the Auto Closure Device (ACD) keeps the inlet shut to protect the first stage internal parts from contamination and corrosive water.

- Preserves the internal lubrication.
- Keeps the inlet filter clean and dry.
- Safer for elevated percentages of oxygen.

High-pressure seat : 20 years of reliability

The high-pressure seat is the “heart” of a regulator. With every breath a diver takes, the high-pressure valve opens and closes again. The seat must create the perfect seal every time, providing consistent accuracy of the medium working pressure. It is crucial to select the perfect blend of materials in order to achieve reliability over the years of regulator usage.

Thanks to proprietary materials and a specific overmolding adhesion process, Aqua Lung’s unique, patented seat design has proven to be a benchmark regardless of the often extreme conditions their regulators are used in. Each balanced high pressure seat is 300 bar compatible and was individually inspected multiple times at Aqua Lung’s facility in Carros, France, to guarantee the highest manufacturing quality levels.

For the past 20 years, this valve has been installed into over one million regulators and it has proven to be exceptionally reliable.

Comfo-Bite™ mouthpiece

Patented Comfo Bite™ mouthpiece reduces jaw fatigue and secures the second stage more comfortably

OMNI

Created for anyone who wants to fully customize their dive gear, the Omni is a revolutionary jacket-style BCD designed to fit your specific style and size. Bringing ModLock™ technology popularized by our Rogue & Outlaw BCD's connector system, the Omni allows you to choose from 3 universal sizing components: for your back, your shoulders and your waist, allowing for dozens of size combinations. Continue your customization by choosing from multiple accessory options and 6 color kits. This is the ideal platform to create your perfect fit and you've got an infinity of possible configurations!

Features

- Modlock™ connectors allow for interchangeable back, shoulders and waist strap components to create dozens of possible sizes and configurations.
- Modlock™ connectors easily click into place and are simply unlocked with a small tool such as a key or pen.
- Color kits available in 6 options with the following components: back pad, reusable mesh bag, Surelock™ II weight pockets, octo pocket, console holder, inflator hold down, zipper pulls, and chest strap slider.
- Customizable jacket style BCD with the most desired features: zippered pockets, stainless steel D-rings, octo holder & knife attachment point.
- GripLock™ tank band – patent pending finger-saver feature and macro presets create an easy and safe solution for securing and detaching a cylinder to the BCD.
- Patented SureLock II™ Weight System - allows you to easily insert the weight pouch and an audible "click" lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- A new 3-position bladder retraction system pulls in the sides of the bladder during deflation keeping the unit streamlined and reducing drag.
- Adjustable chest strap for personalized comfort.
- Features 4 Stainless Steel D-rings for streamlined accessory attachment.
- Both upper and lower right pull dump valves.

Optional

- o Trim pockets (1.5kg/3lbs)
- o SMB pocket
- o Waistband Extender

AQUALUNG ROGUE

Created for the accomplished diver who knows exactly what gear they want, the Rogue BC strikes the perfect combination of personalization and minimal design. Utilizing Aqua Lung's patent pending ModLock connectors, the Rogue allows divers to dive their way thanks to the Rogue's easily interchangeable size and accessory configurations. With a 15L/35lb lift capacity, SureLock II weights, 2 folding pockets, and stainless steel D-rings — this BC comes standard with all the bells and whistles you want, without all the fluff you don't. When it comes to your gear, make every dive personal. Your Dive. Your Way.

- Perfect combination of minimalist design along with the most desired features:
 - o Pockets, Stainless D-rings, Octo holder, knife attachment point
- Easy-to-disconnect and reattach shoulders and waists and has an overall weight of just 2.5kg/5.5lbs
- Interchangeable shoulder and waist strap components:
 - o Create 27 possible sizes for the perfect fit for every diver
 - o Webbed daisy chain, often found on military gear, provides multiple attachment points for your accessories
- Back inflation BCD with 15L/35lbs lift capacity
- GripLock™ tank band – patent pending finger-saver feature and macro presets create an easy and safe solution for securing and detaching a cylinder to a BC
- A new 3 position bladder retraction system pulls in the sides of the bladder during deflation keeping the unit streamlined and reducing drag
- Chest strap for personalized comfort
- Features 4 Stainless Steel D-rings for streamlined accessory attachment
- Upper and lower right pull dump. Upper pull dump is connected using the TwistLock Technology
- SureLock II™ Weight System (patented) - allows you to easily insert the weight pouch and an audible “click” lets you know the weights are secure in the BC. Once engaged, the weights can be released with a firm pull of the handle
- Optional
 - o Trim pockets (1.5kg/3lbs)
 - o SMB pocket
 - o Waistband Extender

AQUALUNG OUTLAW

We broke all the rules with the creation of the Outlaw. Designed for the skillful diver who prefers a minimalistic approach to diving, the Outlaw goes back to basics with no pockets, steel D-rings, or backpacks. Its unique patent pending ModLock™ connector system allows the diver to remove the shoulder and waist straps from the torso, creating up to 27 different size configurations. Experience diving in its purest form - The Outlaw. Break Free

- Back inflation BCD with an interchangeable bladder available in 12lbs & 25lbs lift capacities
- Back to basics - No pockets, no steel D-rings, no un-necessary backpacks
- Most travel friendly BCD on the market – With easy-to-disconnect shoulders and waists and an overall weight less than 4lb/1.8kg
- Interchangeable shoulder & waist strap components create 27 possible sizes for the perfect fit
- Webbed daisy chain, often found on military gear, provides multiple attachment points for accessories
- Standard carabineer that can be mounted on either right or left shoulder strap
- GripLock™ tank band with Finger-Saver feature and macro presets create an easy and safe solution for securing a cylinder to a BC
- A bladder retraction system pulls in the sides of the bladder during deflation keeping the unit streamlined and reducing drag
- Adjustable chest strap for personalized comfort
- Features 4 webbed D-rings for streamlined accessory attachment
- Lower right pull dump provides an additional dumping option

Optional

- SureLock II™ Weight System (patented) - allows you to easily insert the weight pouch and an audible "click" lets you know the weights are secure in the BC. Once engaged, the weights can be released with a firm pull of the handle
- Trim pockets (2.25kg/5lbs)

WAVE

TOP RENTAL

When you think of the Wave BC, you think of an entry level model that is rugged and fade resistant. With this latest Wave however, you get so much more. You now get a stylish BC that has the clever ability to add weight integration! Dive it in its standard form using a weight belt and then upgrade to weight pockets, featuring our SureLock™ II weight system, whenever you're ready. It's versatile, it's rugged, it's sharp, it's a Wave.

- Made from tough, fade-resistant 1000D Armorshield™Cordura®
- Accepts an optional SureLock II weight system (available separately)
- Comes in six sizes! XXS – XL
- A scooped octo-pocket on the top front of the right lobe makes it easy to deploy and stow an octopus.
- Ability to run instrument console behind the left lobe and out the scooped instrument opening on the top front of the lobe
- Features two stainless steel flat D-rings
- Two large utility pockets are easily accessible and large enough to hold all of you accessories.
- Right shoulder pull dump with hi-viz orange pull bob
- Right, lower rear dump with hi-viz orange pull bob
- The waistband is adjustable and removable
- Includes chest strap

SIZE XXS ALSO FEATURES:

- A detachable double adjusting crotch strap made with neoprene center for extra comfort
- Optional tank band for 30 cu. ft. cylinder (Part number: 427056)

Because of the popularity of this BC in rental fleets, **the inflator hose is not included.**

MEASUREMENT INSTRUCTIONS

Waist size in men is normally measured by placing the measuring tape around the waist, cresting the pelvic bone. This measurement is not accurate for BC fitting. The waist size in men should be measured at the height of the belly button just above the pelvic bone (Figure 1). Women's waist size is always measured just above the pelvic bone (Figure 1). This same measurement applies for BC fitting.

Over The Shoulder (OTS) measurement is taken by placing the measuring tape across either the right or left shoulder and reading the distance between the top of the waist line on the back to the top of the waist line in the front (Figure 2). Again, for this measurement in men the waistline is taken to be at the height of the belly button. When fitting the customer in his/her respective waist size and OTS range, inquire what thickness of wetsuit the BC is most likely to be worn with. Calculate about a 2" allowance for the waist measurements for thick, cold water suits.

FIGURE 1: Measuring points for waist size.

FIGURE 2: Measuring points for OTS length.

AQUALUNG PRO HD

The Pro HD is a wrap-around jacket with weight integration that is sure to appeal to a wide range of divers. It provides excellent value because it is so feature-rich for the price. Due to its advanced Resistek™ material, it will hold up to the rigors of salt and chlorine and retain its good looks. Wherever you want to take it, it's ready to go.

The Pro HD comes in 6 sizes and one color combination: black / charcoal / blue.

- SureLock™ II Mechanical Weight Release System (patented) – provides a safe, single-pull release. Inserting weight is as simple as insert and “click”. With SureLock, your weights are secure in the BC. Once engaged, the only way to release the weight is to pull on the handle
- A proprietary backpack has a built in carrying handle and a traction pad to reduce tank slippage
- Technologically advanced Resistek™ material resists fading and abrasion
- The large, easy-to-access, utility pockets found on either side of the Pro HD have two-way zippers with zipper pulls. There is an attachment loop inside the left pocket
- The waistband is adjustable in the back to accommodate a wide range of waist sizes
- The low profile flat valves reduce drag when moving through the water
- Fixed pockets on the tank band increase weight capacity and help provide proper trim in the water
- A scooped octo-pocket on the top, front of the right lobe makes it easy to stow and deploy an octopus. The octopus remains visible and accessible throughout the dive
- Some divers may find it useful to run their instruments behind the left pocket and out the scooped opening on the top, front of the lobe
- A positioning strap allows you to set the Pro HD at your preferred height each time
- Knife attachment points are found on the left lobe which will accommodate many of the Aqua Lung knives. This location provides easy access to the knife
- Features 5 stainless steel D-rings for all of your accessories
- Large pull bobs are easy to locate and grip with thick gloves
- Right shoulder pull dump is easy to locate and use
- Lower rear dump is useful for horizontal or head down orientation
- The chest strap can be adjusted for personal comfort
- Optional accessories include the Airsource, Squeeze-lock knife, reflector kit and retractor kit.

AQUALUNG ZUMA

The fun, travel-friendly ZUMA will find favor with those divers who are tired of paying excess baggage fees. This ultra-light, weight-integrated, back inflation BC has everything you need, yet lacks weight and bulk. Once you lift it, you'll feel for yourself that a size ML/LG weighs less than 2 kg (4.4 lbs), with the airway and weight pockets included!

- Extremely lightweight
 - Size ML/LG weighs less than 2 kg (4.4 lbs)
 - Great packability – flat or rolled
- Weight integration features the SureLock™ II (patented) mechanical lock and release system. The weight pockets align themselves, so just insert the pocket until it “clicks”. A simple, single pull of the release is all it takes to jettison the weights in an emergency.
- Innovative tank support system eliminates the need for a hard pack
 - Lower tank band aligns with waist band.
 - A valve strap pulls the top of the cylinder in towards the center of gravity transferring the load to the hips and relieving the shoulders.
- Only 4 sizes are all that's needed to cover from XXS to XXL
- Adjustable chest strap
 - The two buckles ride on a rail system allowing the strap to be raised, lowered or removed
- Proprietary flat valves mean less bulk (patent pending)
- Fold-down, easy-access pocket
- Features 6 D-rings to attach accessories
- Includes attachment grommets for knife
- Right shoulder pull dump
- Lower right pull dump
- Sculpted padded shoulders
- Padded spine and lumbar support
- Optional non-ditch weight pockets that mount on the tank band (part number: 427085) can be purchased separately.
- Other options include the Airsource, Squeeze Lock knife and reflector kit.

AQUALUNG PEARL

The Pearl is a wrap-around jacket style BC specifically designed for the female diver. It offers an adjustable waistband and specially curved shoulder straps that provide a customizable and comfortable fit.

- A unique hybrid design gives the best of both worlds; an ADV jacket style combined with a back inflation unit allows you to float comfortably at the surface and creates a streamlined profile during your dive
- The advanced air cell design has sleeker, lower profile lobes and a shorter torso length create a comfortable fit on the hips
- The low profile flat valves reduce drag when moving through the water
- SureLock IITM Mechanical Weight Release System (patented) – allows you to easily insert the weight pouch and an audible “click” lets you know the weights are secure in the BC. Once engaged, the weights can be released with a firm pull of the handle
- Adjustable, removable chest strap for personal comfort
- Two large, easy-to-access utility pockets found on either side of the Pearl have two-way zippers with zipper pulls
- Features four D-rings for all of your accessories
- Easy-to-access knife attachment points on the left lobe accommodate many of the Aqua Lung knives
- A clever octo-pocket on the right lobe secures the octopus while keeping it accessible and visible throughout the dive
- A scooped instrument pocket (or octo-pocket) is also on the top front of left lobe, giving versatility of use
- Adjustable waist band allows you to customize for a perfect fit
- Optional accessories include the Airsource, Squeeze-lock knife, reflector kit and retractor kit

AQUA LUNG'S PEARL SERIES GOES PINK:

Aqua Lung gives back to women by supporting an important cause that has affected our employees and their families, and women all around the country. We are pleased that Aqua Lung will be making a cash donation to the American Cancer Society for breast cancer research based upon the sales of the Pearl.

AQUALUNG DIMENSION

The Dimension is a back inflation style BC that incorporates Aqua Lung's integrated Wrapture™ Harness System, providing amazing comfort and stability. The Dimension is made from durable, faderesistant ResisteK™ material and features the patented SureLock™ II mechanical integrated weight system.

- HP hose routings through the back keep your entire kit low profile thus minimizing drag.
- The low profile fl at valves reduce drag when moving through the water.
- A bladder retraction system is used to pull in the sides of the bladder during deflation. This keeps unit streamlined and reduces drag.
- Adjustable chest strap for personal comfort.
- A clever octo-pocket on the right lobe secures the octopus while keeping it accessible and visible throughout the dive.
- Two large, easy-to-access utility pockets are found on either side of the Dimension.
- Easy-to-access knife attachment points on the left lobe accommodate many of the Aqua Lung knives.
- Features 4 stainless steel D-rings and 4 plastic D-rings (1 is located inside the left pocket) for all of your accessories.
- Right shoulder pull dump provides an additional dumping option.
- Rolled neoprene neck collar for comfort.
- Non-ditchable weight pockets on the back of the BC help the diver achieve proper positioning in the water.
- All sizes are capable of holding up to 30 lbs / 13.5 kg of lead weight.
- Optional accessories include the Airsource, Squeeze lock knife and refl ector kit.

AQUALUNG AXIOM

The Axiom is a durable, full-featured BC that boasts amazing comfort and fit. This ADV style, wrap-around jacket gets its noticeable comfort and support from Aqua Lung's proprietary Wrapture™ harness system. The Wrapture™ allows you to stand up straight in total comfort while the cylinder remains perfectly vertical and pulled in close. This comfort, along with the innovative GripLock™ tank band and the SureLock integrated weight system will make the Axiom the new standard for recreational divers.

- The Wrapture™ harness system, using the shoulder swivel buckles (patented), valve retention strap and a customized back plate, provides comfort and stability while preventing "ride-up" at the surface
- The GripLock™ tank band system makes attachment to a cylinder easier than ever before. Gone are the days of complicated web weaving and you don't have to worry about pinching your fingers with the innovative finger saver feature (pat. pend.)
- Uses a super streamlined air cell design making it one of the most streamlined jacket style BCs in the world
- The low profile flat valves reduce drag when moving through the water
- SureLock II weight pouches (patented) provide a simple, single-pull release. Loading is as simple as insert and "click"
- Fixed pockets on the tank band increase weight capacity and help provide proper trim in the water
- A bladder retraction system is used to pull in the sides of the bladder during deflation
- The chest strap can be adjusted for personal comfort
- A scooped octo-pocket on the top, front of the right lobe makes it easy to stow and deploy an octopus. The octopus remains visible and accessible throughout the dive
- Some divers may find it useful to run their instruments behind the left pocket and out the scooped opening on the top, front of the lobe
- Large, easy-to-access, utility pockets found on either side of the Axiom are secured with zippers
- Knife attachment points are found on the left lobe
- Large pull bobs are easy to find and grip
- Features 5 stainless steel D-rings and 1 plastic D-ring for all of your accessories.
- Right shoulder pull dump is easy to locate and use
- Rolled neck collar for comfort

AQUALUNG AXIOM i3

The GripLock™ tank band and buckle system makes its debut on the Axiom i3. This strong, secure system makes attachment to a cylinder easier than ever before. Gone are the days of complicated web weaving and you don't have to worry about pinching your fingers with the innovative finger saver feature (pat. pend.) The i3 Control System (patented) provides single touch control for inflation and deflation.

- Intuitive design makes buoyancy control safer and easier
- Opens upper and lower dump valves simultaneously. No more thinking about which dump valve to reach for
- Over-molded lever prevents gloves from slipping off while using
- Increased flow rate over traditional inflators. Allows you to fill your BC faster
- Attached dust cap prevents contaminants from entering mechanism when not in use
- The i3 uses fewer parts and is easier to service compared to standard inflators
- Using the new LP hose grip, the LP hose can be attached or removed while wearing the BC. This will satisfy instructional agency requirements to disconnect and reattach LP hose while training.

Modlock™ System

Aqua Lung's patent pending Modlock™ System is the future of custom BCDs. The revolutionary Modlock™ technology allows divers to fully customize their BCD for their specific size and needs, with an infinite number of possible configurations. No longer will you need to decide between that Medium or Large BCD. This system allows you to choose the size of each component individually, so you can go with a Large Back, Medium Shoulders, and a Small Waist to find that perfect fit. The Modlock™ connectors easily click into place and are simply unlocked with a small tool. In addition to size, you can also customize with different add-ons and colors to add your own unique style.

Wrapture™ Harness System

The cylinder is in perfectly vertical position

A specialized thin Backplate which keeps the cylinder close to the diver's gravity

There are several key elements that make up the Wrapture™ Harness System:

- A specialized Backplate
- Tank band (location)
- Valve retention strap
- LDPE plastic support (low density polyethylene)
- Swivel shoulder buckles (patented)

The Wrapture™ Harness System provides comfort and stability. It allows a diver, wearing a cylinder, to stand up straight when out of the water.

The Backplate is very thin to keep cylinder close to the center of gravity of the diver. It lowers the tank band and places it next to the waistband to keep primary weight on the hips as opposed to the shoulders and it laterally stabilizes the cylinder to keep it from swinging. The Valve Retention Strap pulls top of cylinder in close which shifts the weight downwards while taking stress off the shoulders. Thus the cylinder remains perfectly vertical. Note: Do not tighten all the way, just enough to keep cylinder vertical. A sheet of LDPE (low density polyethylene) plastic wraps around the diver's body for comfort and stability. It works in conjunction with the shoulder swivel buckles (patented) and supports the weight pockets. Keeping the back pad pulled in against the back it prevents ride-up. The swivels shoulder buckles allow shoulder strap to swivel backwards so that it can run under the diver's arm. The strap remains flat against the body and prevents ride-up of the BC.

i3 Technology

i3 SYSTEM

Easy leveling on the hips

All BCs with i3 technology do have an oral inflator in addition

i3: Innovative - Intelligent - Intuitive

- The i3 technology is a single touch control for both inflation and deflation.
- Tactile lever is easy to locate because the i3 never moves like a traditional inflator at the end of a floppy hose.
- Intuitive control – lift up to inflate, push down to deflate.
- When the levered is moving down, it opens all of the flat e-valves at once.

Oral inflator

The inflator is easy to locate and deploy and can be stowed out of the way. The rubber lip block allows easy inflation even in the coldest waters. Just push against lips to open valve. Can be removed to access rinsing port or to add an Powerline Inflator (if desired).

BC Size Guide & Lift Capacity

aqua lung school set

Favorite diver's package amongst resorts, tour operators and diving academies worldwide

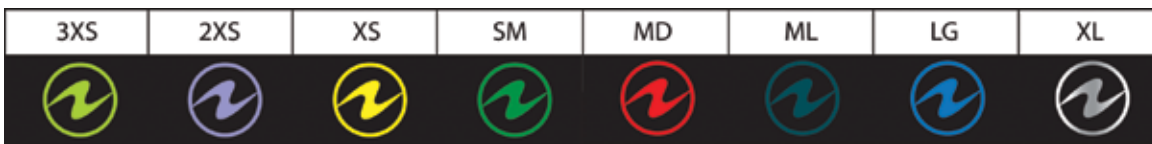

A RELIABLE, DURABLE & COMFORTABLE DIVER'S PACKAGE

- Made from tough, fade-resistant 1000D Armorshield™ Cordura®. Ultra durable.
- With its unique dye process, UV resistant, the Wave bcd still looks like new after thousands of dives!
- The octo/instrument pocket will keep you ultra streamline without dangling hoses.
- Pull dumps are with hi-viz orange color to be seen, found and to demonstrate easily
- 3 pull dump valves perfectly adapted for the rental market
- Equipped with the reliable powerline inflator with high inflation speed for an accurate bouyancy control
- Features two stainless steel flat D-rings for a safe and reliable attachment
- Accepts an optional SureLock II weight system (available separately)

ACD Upgrade

The calypso regulator is our "workhorse", easy to maintain and without tools! It provides great performance with comfort and durability. Comes with or without quick connector device.

ANALOG GAUGES & COMPASS

PRESSURE GAUGE

The Aqua Lung Pressure Gauge delivers both remaining air pressure and temperature in one easy-to-read display.

- Easy-to-read scale up to 5,000 PSI / 350 bar rated
- Luminescent gauge face for easy reading in low light
- Integrated temperature scale
- Nitrox compatible up to 50%
- Shock resistant Bourdon tube
- One way safety valve
- Hose length is 36"

Options

- Available in imperial or metric

DEPTH GAUGE

The Aqua Lung Depth Gauge, with its specially designed depth scale and luminescent gauge face, allows for easier reading at a glance.

- High fidelity depth scale provides accurate and easier reading at shallow depths
- On the wrist mount version, the strap is designed to fit a variety of wrist sizes and wet/dry suit diameters
- Maximum depth indicator
- Luminescent gauge face for easy reading in low light
- 200 foot / 60 meter maximum depth
- Wrist mount boot allows for future upgrade to the i300 dive computer module

Options

- Available in imperial or metric
- Available in wrist mount or drop-in for console

ANALOG INSTRUMENT CONFIGURATIONS

- 2 gauge console includes Pressure Gauge, Depth Gauge and Writing Slate (provides option to add in a Compass)
- 3 gauge console includes Pressure, Depth and Compass
- Single unit Pressure, Depth or Compass option available

i200C

Dive Computer

The i200C is an intuitive, sporty dive computer and now with its fresh design, you'll find yourself wearing the i200C as an everyday sports watch that is ready to dive when you are.

The real step forward with the NEW i200C is that it now features **Bluetooth SMART** that can connect with your hand held devices through a FREE app which allows you to make adjustments to the settings and log your dives without touching the buttons on the dive computer !!

- Available in 6 colours
- **DiverLog+ App is available** for FREE from Play Store or App Store – Control all settings on the Dive Computer, Log Dives with Google Map locations, connect with Buddies through Social Media and much more
- **4 operating modes.** Air, Nitrox, Gauge (with run timer), and Free Dive (tracks calculations to allow unrestricted switching between Dive and Free)
- **User-changeable standard battery** and data retention. Uses globally available standard batteries. Maintains settings and calculations between battery changes
- **High visibility LED** alarm light for additional diving safety
- **Switch between up to 2 Nitrox mixes.** Mixes up to 100% O2 with no restriction
- 2 year International Warranty

OTHER MAIN FEATURES

- Single button access to last dive display (max depth and bottom time)
- Deep Stop with Countdown Timer
- History Mode records last 24 dives
- User-updatable software gives access to the latest features and upgrade (must purchase optional download cable)
- Simple to use with DiverLog software on the Mac or PC platforms, which allows control of all your dive computer settings, view Log and Profile data, add location, notes and other details, as well as store and share photos & videos. DiverLog must be purchased separately at ediverlog.com
- *DiverLog app must be purchased separately on the App Store, Google Play or ediverlog.com

OPTIONS

- Download cable

AQUALUNG i470TC

First in its class, the i470TC is an intuitive, stylish dive computer with Bluetooth communication and wireless air integration.

With stylish and instinctive design, the watch-style i470TC dive computer is packed with features that will keep you connected and on all your dive explorations. You can easily connect to Aqua Lung's free Diverlog+ app on your mobile device to wirelessly log your dives and manage computer settings. After any dive, share your interesting data and photos on social media. Complete with hoseless air integration, 4 operating modes, and the ability to switch between 3 nitrox mixes and 3 transmitters, the i470TC will be a compact «mission control» on your wrist.

NEW
2021

Features

- Bluetooth connects wirelessly to Aqua Lung's free DiverLog+ app
 - Using your smartphone, tablet or laptop, the DiverLog+ app (available for iOS and Android) allows you to wirelessly interact with your i470TC via the latest Bluetooth Smart technology.
 - Remotely control all your i470TC settings, view Log and Profile data, add location, notes and other details, as well as store and share photos and videos of your dive.
- 4 operating modes. Air, Nitrox, Gauge (with run timer), and Freedive (tracks calculations to allow unrestricted switching between Dive and Freedive).
- User-changeable standard battery and data retention. Uses globally-available standard batteries and maintains settings and calculations between battery changes.
- Switch between up to 3 Nitrox mixes with 3 Transmitters Mixes up to 100% O2 with no restrictions.

Other Main Features

- Audible alarms and additional high-visibility LED warning light for increased safety
- Single button access to last dive display (max depth and bottom time)
- User selectable deep stop with countdown timer
- History Mode records last 24 dives
- User-updatable software gives access to the latest features and upgrade (must purchase optional download cable)
- Interface allows for easy settings preview and updates
- Available in black

Included in the Box

- Digital Instruction Manual
- Safety Reference info
- DiverLog brochure
- Quick Reference card
- Lens Protector
- Battery Compartment Opening tool inc

Options

- Download cable
- Two Pressure Transmitters available: 21% O2 (outside the EU up to 40% O2 due to European Norm EN 144-3:2003) and 100% O2 clean

AQUALUNG i770R

The most tech-savvy diver will appreciate the i770R's Bluetooth capability and cutting-edge high-visibility TFT color screen, as well as its robust functionality and intuitive, compact design.

The i770R combines the best of today's most advanced performance features with an out-of-the-box simple to use interface. Every feature thoughtfully maximizes your focus on the dive experience. With standard features that include a rechargeable battery, 3-axis full-tilt compass, easy three-button navigation, multiple gas capability and 4 operating modes, managing your dive has never been easier.

And, with options for hoseless gas integration via a paired-for-life transmitter and the Diver-Log+ app, you can integrate technology and connectivity to all your dive adventures.

- **Rechargeable lithium battery**
- **High-visibility Thin Film Transistor (TFT) color screen with easy-to-use interface**
 - o Color screen. Ultra-bright, high-contrast, full-color TFT display, with easily adjustable intensity for perfect clarity and battery savings when a high-intensity screen is unnecessary
 - o Easy-to-use interface. Monitor all your key information with the intuitive menu structure. The i770R's intuitive 3-button navigation interface allows for easy settings preview and updates
- **Bluetooth data transfer to the DiverLog+ app***
 - o Using your smartphone or tablet, the DiverLog+ app (available for iOS and Android) allows you to wirelessly interact with your i770R via the latest Bluetooth Smart technology
 - o Remotely control all your i770R settings, view Log and Profile data, add location, notes and other details, as well as store and share photos and videos of your dive
- **Hoseless gas integration.** Our patented Gas Time Remaining Algorithm provides calculations in real time, allowing accurate gas management
 - o Compatible with 4 different transmitters and nitrox mixes on a single dive
- **Paired-for-life transmitter.** Once you pair your transmitter to your i770R, it's done—there's no need to ever pair again
- **3-axis full-tilt compass.** Easy-to-read compass graphics, with a compass-bearing lock and reciprocal heading for easy navigation. An alternate compass bar can be displayed on the primary dive screen with the touch of a button.

OTHER MAIN FEATURES

- Multiple gas capability manages up to 4 Nitrox mixes (with 4 transmitters), each with individual PO2 set points
 - Audible alarms and color-changing segments provide cautions and warnings for additional safety
 - Automatic altitude adjustment ensures an accurate profile
 - Included adjustable bungee wrist mount and NATO band
 - Pre-Dive planning feature allows a preview of planned dives to maximize your next adventure safely
 - Automatic Safety Stop Countdown displayed in minutes and seconds for clarity
 - Battery status indicator for both computer and transmitter
 - 4 operating modes: Air, Nitrox, Gauge and Free Dive, so it's up for any adventure
 - User-updatable software gives access to the latest features and upgrades
 - Optional deep stop with countdown timer
 - Salt or fresh water dive selection
- * DiverLog app is available on the App Store, Google Play or www.ediverlog.com

OPTIONS

- Transmitter (40% or 100% options)

AQUALUNG i100

The i100 is the perfect dive computer for the new diver. With simple one-button navigation, you can select from four operating modes and manage two gases. The computer will also retain all your settings and calculations between battery changes. Safety features such as audible alarms and a high-visibility LED warning light are included. The i100 dive computer provides all the essential functionality you need, a compact design, and a great price.

- **4 operating modes.** Air, Nitrox, Gauge and Free Dive (tracks calculations to allow switching between DIVE and Free)
- **User changeable battery and data retention.** Maintains settings and calculations between battery changes
- **Intuitive one-button navigation**
- **2 Nitrox gases**

OTHER MAIN FEATURES

- Audible alarms and additional high-visibility LED warning light for increased safety
- User-updatable software gives access to the latest features and upgrades (must purchase optional download cable)
- Pre-Dive planning feature allows a preview of your next dive
- Water activation feature, to give a no-worries start to the dive
- Single button press access to last dive display (max depth and bottom time)
- History Mode includes total number of dives, max depth, total dive hours and lowest temperature
- Nitrox mix to 100% O₂
- Optional deep stop with countdown timer
- Salt or fresh water dive selection
- Automatic altitude adjustment ensures an accurate profile
- Simple to use with DiverLog software on the Mac, PC or mobile platforms, which allows you to control all dive computer settings, view Log and Profile data, add location, notes and other details, as well as store and share photos and videos. DiverLog must be purchased separately at www.ediverlog.com.

AQUALUNG i300C

Bluetooth technology is now added to the popular i300C, making it even simpler to use

The i300C's uncomplicated, intuitive, and rugged design lets you focus on your dive, not your gear. With an easy-to-use interface, flexible operating modes, built-in backlight and water-activated on switch, the i300C gets you in the water and descending to your next adventure in no time. This durable, versatile and affordable dive computer is great for new divers as well as dive schools and centers. Now with Bluetooth connectivity, you can use the DiverLog app to share dive log information and connect with dive buddies on most mobile devices. Users will appreciate the data retention feature that saves past settings and calculations between battery changes.

- **Bluetooth connectivity.** Now equipped with Bluetooth technology that offers the user a simple and quick wireless exchange of dive log information with the DiverLog app and fast connections with their buddies on social media
- **4 operating modes.** Air, Nitrox, Gauge (with run timer) and Free Dive (tracks calculations to allow switching between DIVE and Free)
- **User-changeable battery and data retention.** Maintains settings and calculations between battery changes
- **3 Gas computer.** Able to switch up to three gases underwater
- **Backlighting.** For easy reading in low light

OTHER MAIN FEATURES

- Audible alarms and additional high-visibility LED warning light for increased safety

PLAZMA

For new and experienced divers, the Plazma is the only frameless panoramic diving mask that delivers a perfect fit with excellent comfort from surgical grade premium silicone and ExoHex stability. The Plazma mask delivers a lightweight and compact, low-profile design in fresh, exciting color combinations and is available with Clear and Advanced Mirror lens options.

MAIN FEATURES

- No strapping design thanks to patented Micromask technology by Aqua Lung
- Frameless constructions utilizing Aqua Lung proprietary Micromask Technology
- Pressure reduction zones are incorporated into the silicone skirt at strategic points to help relieve the pressure of the mask on long dives. This engineered design utilizes these reinforced zones to improve also skirt stability at traditional weak points
- Two lens options: Clear and Amber, that reduces glares in shallow water and enhances red colors in deep water
- Quick Fit Buckles. The one-touch button release allows for easy adjustment for the best fit, even while wearing thick gloves
- Advanced Fit Technology (AFT) enhances the sealing features of the silicone skirt, improving fit, comfort and feel
- Preformed mask strap better forms to the diver's head, increasing comfort and provides a more secure fit
- Reusable protective case

AQUALUNG REVEAL X1, X2

The Reveal's innovative features make this dive mask our most comfortable and best fitting mask. Created after years of research and testing, the Reveal is a premium diving mask that delivers ultra-comfort and a perfect fit thanks to both a super soft, top quality crystal-clear silicone and an ergonomic skirt profile. The new buckles, attached directly to the silicone skirt, feature a single quick-button release system and the mask is equipped with an innovative spherical silicone head band strap—all to help the diver create the perfect leak-free fit. The Reveal is available in single lens (Reveal X1) or twin lens (Reveal X2) versions.

Features

- Universal Advanced Silicone Skirt (UASS). After years of research and testing, an innovative wrap-around geometry has been designed for an excellent fit for a wide range of face shapes. A new grade of crystal-clear silicone is used to create a super soft and comfortable fit
- Advanced Fit Technology (AFT) enhances the sealing features of the silicone skirt, improving fit, comfort and feel
- The Spherical Silicone Head Band Strap is an innovative design for the silicone strap, in the shape of a sphere to perfectly and comfortably fit the diver's head and keep the strap securely and comfortably in place
- Quick Fit Buckles. The one-touch button release allows for easy adjustment for the best fit, even while wearing thick gloves. The buckles are attached directly to the silicone skirt in order to provide stability on the face
- HI-VIS technology molds the frame of the Reveal from two bright yellow and orange materials for increased visibility under water
- The single-lens version of the Reveal features an innovative construction system that makes it the lightest single lens mask (non-frameless) on the market

AQUALUNG VENTURA +

Great designs stand the test of time, and the Ventura continues the tradition of a mask long used by divers around the globe. This updated version is available in new colors and adds the comfort and performance of Cardanic Joint Buckles to a classic, rugged frame.

- Proven single-lens frame delivers a wide field-of-view and a nearly universal fit.
- Cardanic Joint Buckles rotate both up-and-down and in-and-out for a customized and pinch-free fit.
- Counterposed push button activation makes strap adjustments fast and holds the strap securely in place once set. The system is also easy to use when wearing gloves.
- High-grade silicone material allows the facial skirt to flex and naturally mold around facial contours for a leak-free seal.

AQUALUNG LINEA

The Linea uses the Micromask technology. It's very close to the face, has a very low volume and is extremely lightweight. In addition with a single glass the Linea offers a maximum field of vision.

- Using Micromask technology, the Linea's lens, skirt and frame are molded together in one shot as opposed to other masks where multiple pieces are snapped together. This allows the lens to come close to the face which maximizes the field of vision.
- Low volume means that the mask is easier to clear and reduces the buoyancy
- Advanced Fit Technology (AFT) uses bands of different textures around the edge of the skirt resulting in a superior seal against the face
- The mask skirt goes further back on the face enhancing the comfort and reducing the marks left behind on the face.
- The clever Comfort Buckle System (CBS) prevents the diver's hair from getting tangled in the buckle

Comfort Buckle System (CBS)

Advanced Fit Technology (AFT)

AQUALUNG FAST STRAP

Inspired by the best winter sports goggles, this flexible mask strap does not only look comfortable but also feels amazingly nice. The FAST STRAP helps to reduce painful hair entanglement that silicone straps often cause, plus it's easy to set.

The FAST STRAP is easily adjusted, so you can find your perfect strap setting once and keep it forever. Customize your mask with one the 3 colors available, match and compliment your style.

Features

- Easy clips to swap your strap in seconds
- Does not have to fit a specific buckle – fits on most standard buckles.
- Continuously adjustable
- One size fits all

AQUALUNG MICROMASK

The smallest and the lightest diving mask. Less than 91 cm³ and less than 15 g. The Micromask is perfect for apnea and spare fishing. Thanks to its small size, it can be used as a back up mask. It will be able to be placed in a BC pocket.

Features

- 2 lenses mask: an extremely low volume and a low profile resulting in excellent horizontal and vertical angle of view.
- Hypoallergenic silicone skirt fits with double lips. Reduce the risks of irritation, ensure a perfect sealing.
- Cardanic joint buckles: the patented "double joint" buckles rotate both up-and-down and in-and-out. They provide maximum adaptability and comfort to any head shape.
- New push buttons buckles system : to reduce the length: pull on the strap. To release the strap: push on the 2 buttons.
- Large head strap : greater stability. Perfect fit and great comfort of wearing.

AQUALUNG ZEPHYR FLEX

Zephyr Flex's unique dual-material construction combines rigidity and flexibility for dependability and comfort. The Zephyr Flex is a corrugated snorkel, with an elliptical purge valve and an anti-shock soft splashguard. The unique construction uses two materials, one rigid to prevent collapse and the other soft to allow flexibility which reduces pressure on the diver's mouth. Thanks to the elliptical purge valve, the Zephyr Flex creates a seal against incoming water and makes easy work of purging water away. The anatomically-designed silicone mouthpiece reduces jaw fatigue and the soft splashguard top helps to reduce water entry at the surface in choppy conditions. The ergonomic snorkel retainer is easy to operate, even with thick gloves.

Features

- At the very heart of the snorkel is our shaped and protected silicone Elliptical Purge Valve: the shape of the valve guarantees sealing as well as ease of purging.
- The anatomically-designed mouthpiece made from medical silicone reduces jaw fatigue.
- The joint between the mouthpiece/valve box and the corrugate is a swiveling sealed connection that rotates for a better fit.
- The corrugate is made from two materials, one rigid and the other flexible. Corrugates from other manufacturers collapse even on shallow dives. Zephyr Flex does not, thanks to the rigid skeleton that keeps it in shape. The flexibility also provides an important fitting benefit: it lets the mouthpiece set softly into the diver's mouth without stress, improving comfort and reducing jaw fatigue.
- The large snorkel retainer is very easy to use even with thick gloves, thanks to an ergonomically-designed structure.
- The D-barrel-shaped tube helps the Zephyr Flex rest more streamlined against the diver's face.
- The splashguard is made from two materials with the same corrugate technology. This rigid, yet flexible construction helps prevent potential injuries in crowded environments such as diving clubs, classes and on boats.

STORM

The Storm fins is a great all-around fin ideal for travel. Produced using Monprene®, a single material construction gives both durability and strength while maintaining exceptionally light weight, exactly what the traveling diver requires. The innovative foot pocket design has the advantage of a full foot fin for comfort with the versatility of an open-heel fin for sizing. Available in a wide range of 4 sizes covering from junior to adult.

- Barefoot open heel storm fin, made in a single TPV compound Monprene®
- Ergonomic foot pocket ensures comfort, freedom and prevents fatigue
- Silicone bungee strap equipped with heel pad for easy on-and-off
- Strong compact blade aids in efficient power transfer
- Excellent grip on the underside to reduce slippage on deck
- Access hole in the blade for easy transport and storage
- Simplified size identification by color-coding on the bungee protector and blade insert

AQUALUNG PHAZER

BEST SELLER

From beginner to expert, Aqua Lung's Phazer fins, with its revolutionary composite wave rib technology, provides the perfect balance for divers to produce powerful kicks with easy but energy-maximizing movements.

Designed and produced with a tri-material construction and an advanced canalization system, everything about this fin is engineered to optimize the energy you load and release with every kick.

- **Wave Rib Technology:** The revolutionary side ribs are the heart of the Phazer fins. The elastomeric rubber sections of the ribs work together with the wave-shaped structures, accumulating (loading) the energy of every kick that is released during the kick cycle. The effect is a solid, powerful yet easy kick, suitable for beginners as well as for expert divers.
- **New Bungee Strap:** Equipped with new bungee strap and heel-pad for quick and easy donning and doffing.
- **Tri-Material Construction:** Tri-material construction optimizes every single area of the fin: foot-pocket, blade and side ribs are made with different specific advanced materials to get the best performance.
- **Hydro Power Channel:** Thanks to the engineered channel in front of the foot pocket, the water can flow through the blade, enhancing efficiency, power and stability, making the Phazer a powerful and ideal fin both for professional scuba divers and students.
- **New Canalization System:** The blade features a soft TPR membrane to better canalize water during the primary and recovery portions of the kick cycle.

AQUALUNG X SHOT & SHOT FX

The X Shot Fins are an evolution in diving. Technologies proven successful with the SlingShot and HotShot fins have been incorporated into the X Shot to offer the ultimate in comfort and performance through innovations such as the mid-foot pivot to eliminate foot and toe fatigue often experienced by divers and the "Power Transmission Zone" for efficient kicking. The X Shot comes standard with the Aqua Lung Spring Straps for easy don and doffing. This fin is the ultimate in hybrid technologies, offering an easy kicking fin for your dives while providing optimal power with each kick.

Features

- The Power Zone, located in front of the foot pocket, features integrated "V Boosters", providing optimal power with each kick
- The Power Zone provides the diver a mid-foot pivot point on the fin, minimizing fatigue and maximizing energy transfer to the blade
- A new spring strap offers a soft heel pad along with Aqua Lung's own proprietary buckles
- The foot pocket is equipped with the "Power Transmission Zone". This anchors the foot preventing unnecessary stretching of the foot pocket on the power stroke resulting in maximum energy transmission
- The blade contains a high performance elastomer resulting in high efficiency
- An elastic blade insert creates a "spoon effect" that pushes more water with each down stroke adding to efficiency
- A customized inner sole provides a grip effect. This prevents wasting power from the boot moving laterally inside the boot pocket

X SHOT

SHOT FX

Part of the Aqua Lung Women's Collection, the Shot FX Fins have taken technologies proven successful with the SlingShot and Hotshot fins and incorporated them into a Women's specific fin. The foot pockets are specifically sized for women and the blade stiffness increases with size. This offers women divers their choosing of blade stiffness, depending on their style of diving.

Features

- The foot pocket's design, compounds and sizing are dedicated to women's feet resulting in greater comfort.
- The Shot FX has a dedicated blade that is shorter and softer than traditional fins. This makes them easier to kick.

AQUALUNG STRATOS ADJ.

An excellent choice for divers entering the sport, the Stratos ADJ is easy to kick. The dual-material blade is designed to quickly reach the optimal angle needed to move water quickly and efficiently. This highly durable fin is a popular choice for resort rental programs. The dual-material foot pocket offers a Power Transmission Zone to prevent stretching. This provides maximum energy transfer from diver to fin.

- Dual-material side ribs and blade help transfer maximum energy from foot pocket to blade tip.
- The Bending Zone between the blade and foot pocket allows the blade to quickly reach the optimal inclination for propulsion and water channeling.
- The dual-material foot pocket's Power Transmission Zone prevents stretching during the power stroke of the kick cycle.
- Quick Release buckles are easy to operate and make exiting the water hassle free.
- Ergonomic straps adjust easily, even while wearing thick gloves.
- Colors: Yellow, Orange, Blue and Black

AQUALUNG EXPRESS ADJ.

The Express ADJ fin represents the latest in technology and material innovation. Comfort, power and efficiency are the hallmarks of this propulsion machine. Strap a pair on and see for yourself.

The Express fin works on the same principle as the popular Slingshot and Hotshot fins. The function of the Slingshot power bands has been converted into the Express "Armadillo". This patented, elongated membrane is made from ultra-elastic rubber. Like power bands, it accumulates elastic energy during the down stroke and returns it at the end of each kick cycle.

The Armadillo also bridges the gap between the front of the foot pocket and the back of the blade, which eliminates any water transfer through the fin.

- The blade connects halfway back on the foot pocket at the Mid-Foot Flex Joint. This eliminates hyper-extension of the toes and ankles.
- The foot pocket is not only comfortable, but provides different thickness zones which properly secure the foot to the blade for maximum energy transfer.
- Rubber side ribs channel the water down the length of the fin minimizing the spill-over effect.
- Features the ESBS (Ergonomic Strap and Buckle System). The protruding press-to-release buttons can be operated easily even while wearing thick gloves.
- The strap, made of rubber with anti-aging compounds, has three convenient loops. This makes strap easy to tighten or pull up over the heel even with the thickest of gloves
- Over-sized, anti-slip rubber pads on the bottom of the fin

AQUALUNG EXPRESS

"Fullfoot fins have a new revolutionary icon"

Main features:

- Large blade, elastically linked to the shoe-tip (Slingshot effect).
- Elastic rubberized zone in the fullfoot tip, it allows the fin's blade to bend to the optimum angle to obtain a positive thrust from the complete surface of the blade. Once loaded with energy on the power stroke, it will release the energy prior to the upstroke to provide an added boost of power.
- A new way of making diving more comfortable, efficient and fun.

AQUALUNG STRATOS 3

- Ergonomic foot pocket
- Grip Effect inside the foot pocket
- 4 channel structure
- TORSION ENERGY POINT: a 3-materials side rib area that helps the blade flexing. The bending point has been moved backward. Benefits: more powerful kick with less efforts
- Side wings enhanced swim performance and stability
- Anti-slip rubber pads

AQUALUNG WIND

The Wind is a new entry-level full pocket fin, ideal for light scuba and snorkeling. Even though it is compact and lightweight, the Wind is still robust and comfortable.

- Travel-size blade and light weight make the fin ideal for any adventure.
- Blade made of two materials of light polypropylene with rubber inserts, offering comfort and durability.
- Comfortable and ergonomic foot pocket designed to accommodate the anatomy of the foot.
- Grip Effect inside the foot pocket to ensure foot stability.
- Tab on the heel for easy don & doff.
- Rigid sole guarantees an optimal protection of the foot and a good power transmission to the blade.
- Anti-slip rubber pads.
- Structured side ribs ensure progressive and controlled bending.
- Colors: blue, hot lime & Arctic white.
- Hot lime color option made with Hi-Vis Technology for great underwater sighting.

AQUALUNG BALI CAMO 3MM

The Bali suit is designed for warm-water diving and its thoughtful features such as the flatlock stitching and V-shaped collar give it additional comfort. Printed designs and panels help the Bali resist abrasion, to keep your suit looking good. An optional hood matches the suit.

- Environmentally friendly features: 3mm high quality non-petroleum based neoprene uses a PAH free formula
- Flatlock stitching for comfort against bare skin
- V-shaped collar for better comfort
- Chest panel in mesh-skin for wind and abrasion resistance
- O-ring seals on the wrist and ankles to limit water entries
- Supratex knee panels offering excellent abrasion resistance with the added bonus of increased flexibility
- Printed design on the shoulders to protect from the abrasion of the BC
- Printed design on the wrist to help keep the dive computer in place
- Loop at the end of the zipper and leash on the slider to assist the don and doff
- Hook on the right thigh to attach the optional hood

AQUALUNG SUPERZIP 5MM

The Superzip has an extra-thick sole, heavy-duty protective panels on the upper, and a durable zipper to withstand years of use without tearing. This is the boot for an avid diver who needs to be prepared for cold water, rough terrain, less-than-luxurious boats, and murky, low-viz conditions that hide hazards

Features

- Ergonomic: Like the rest of the Aqua Lung boot line, the Superzip uses our patented, anatomically correct ERGO™ shaped footbed and outsole to match the profile of your foot, preventing excess water retention and offering comfortable support.
- Protective: 8mm-thick treaded sole provides premium protection against punctures, stings, and slips. For added protection and durability, the panels on the heel cap, toe, and top of the foot are twice as thick as in the standard boots!
- Warm: 5mm neoprene upper for the right amount of warmth in any conditions.
- Comfortable The Superzip boot uses just a few seams, which are placed away from the widest parts of the feet to minimize chafing.
- Durable Closes with a heavy-duty, non-corrosive #10 YKK toothed zipper. Elastic binding at the top resists wear and tear.
- Eco-Conscious Packaging: Ships with minimal carbon footprint packaging. No plastic bags

AQUALUNG SUPERLOW BOOT 3MM

This 3mm neoprene, low-top, pull-on boot has a sturdy, supportive 8mm sole while remaining lightweight. It's perfect for adding moderate warmth and significant protection during warm-water shore dives or on areas where splinters, sea urchins and barnacles can pose puncture hazards to your feet. Designed to be worn with open-heeled fins.

- Ergonomic: Like the rest of the Aqua Lung boot line, the Superlow uses our patented, anatomically correct ERGO™ shaped footbed and outsole to match the profile of your foot, preventing excess water retention and offering comfortable support.
- Protective: 8mm-thick treaded sole provides premium protection against punctures, stings, and slips. For added protection and durability, the panels on the heel cap, toe, and top of the foot are twice as thick as standard boots.
- Warm: 3mm neoprene upper for the right amount of warmth and protection
- Comfortable: The Superlow boot uses just a few seams, which are placed away from the widest parts of the feet to minimize chafing.
- Eco-Conscious Packaging: Ships with minimal carbon footprint packaging. No plastic bags.

AQUALUNG NEOPRENE ERGO LOW SOCK 3MM

Even in warm waters, it's a good idea to protect your feet with socks. In addition to adding a layer of warmth, the low-top Ergo Neoprene Sock prevents blisters while wearing open-heel fins. It guards against scrapes and stings when wading in and out of the water during shore dives, and lets you walk at a safe pace on hot surfaces.

- Best Fit: There's no baggy, unused material due to the right and left foot-specific designs.
- Grip Option: Select the silicone print option at check-out for added control.
- Warm: Glued and blind-stitched seams prevent water from entering.
- Durable: The elastic-bound cuff keeps seams from fraying after repeated use and plenty of abuse.
- Travel Friendly: Small, light, and soft, these socks fit easily into luggage.

AQUALUNG NEOPRENE ERGO HIGH SOCK 3MM

Protect your feet in all conditions with socks. We've designed this one to be worn comfortably with a wetsuit or drysuit: it adds a layer of warmth in cold waters and prevents blisters while wearing open-heel fins. Booties also protect your feet from scrapes and stings when wading in and out of the water during shore dives.

- Best Fit: There's no baggy, unused material due to the right and left foot-specific designs. The Ergo socks fit smoothly for warmth and sensation.
- Grip: Silicone print on the sole prevents slipping to help you keep your balance while geared up.
- Warm: Glued and blind-stitched seams prevent water from entering. The high top gives you room for overlap with your wetsuit, and 3mm-thick neoprene provides effective insulation.
- Durable: The elastic-bound cuff keeps seams from fraying after repeated use and plenty of abuse.

SeaLife® MICRO 3.0 - 4K

The SeaLife Micro 3.0 series of permanently sealed camera is the easiest way to immerse yourself into the world of underwater imaging. The Micro 3.0 camera cannot leak, and is ready to dive right out of the box, simply charge the battery and submerge. The Micro 3.0 requires no maintenance – just wash and clean after use. The camera offers impressive results with its large SONY® 16MP CMOS sensor and 4K Ultra HD video.

The Micro 3.0 has 64GB of internal storage. Image and videos can be transferred to Android or IOS devices via the SeaLife Micro 3.0 App or by USB cable. The SeaLife Micro 3.0 is available as a camera only model, or as a complete set, including either one Sea Dragon 3000F Auto or two Sea Dragon 2500F underwater LED lights.

- 16MP SONY® 1/2.3" Image Sensor
- 100° Wide Angle Lens
- 64GB internal memory
- 4K@30fps or 1080p@120 fps Video
- Easy to use "Piano Key" controls
- JPG and RAW image capture
- Built in underwater color correction
- Available Manual White Balance
- Burst Shooting at full 16MP resolution

SeaLife® REEFMASTER RM-4K

Capture the beauty of the aquatic world at depths as great as 130' with the ReefMaster RM-4K **Ultra Compact Digital Underwater Camera** from SeaLife. This waterproof, pressure-sealed point-and-shoot features a Panasonic CMOS image sensor, which records stunning UHD 4K video at 30 fps and Full HD 1080p video at 60 fps, in addition to shooting sharp, detailed, 14MP photos. Benefit from time-lapse shooting at set intervals, enabling you to capture change over time as a video file or series of still images.

- Depth rating: 130'
- Pressure-Lock sealing system with a thumb screw ensures that the housing around the camera is watertight
- Housing holds "Moisture Muncher" desiccant for moisture absorption
- Panasonic CMOS image sensor
- Records UHD 4K video at 30 fps and Full HD 1080p video at 60 fps
- Captures 14MP photos
- Performs underwater color correction to restore hues that are filtered out by the water
- Enables you to get extremely close to your subjects, greatly reducing distortion and fitting more in the frame
- Minimum focus distance of 12"
- Adding an optional macro wet lens reduces this focus distance, bringing you even closer to those corals, pygmy seahorses, and other fascinating inhabitants of the sea
- Compose shots and view image playback on a 2.0" color LCD monitor
- Housing/camera can be held and used with one hand
- Four push-button controls enable easy operation
- Optional tray and grip will improve balance and handling while providing attachment points for lighting arms
- Time-lapse shooting at set intervals allows you to capture change over time as a video file or a series of still images
- Wi-Fi and the free app for Android and iOS devices give you the ability to preview, download, and share your creative work with ease
- Get the apps from the online Google Play and Apple App stores
- Add one or two optional Sea Dragon photo/video dive lights for enhanced illumination and color correction
- Save your brilliant videos and pictures to microSDHC memory cards up to 128GB in capacity
- Runs on a rechargeable lithium-ion battery

SeaLife® REEFMASTER RM-4K PRO 2000 SET

Experience unparalleled ease-of-use with the ReefMaster RM-4K, featuring a pocket-sized design with a 14 megapixel Panasonic® CMOS image sensor and ultra-high definition 4K video. The compact, portable design ensures you can take the ReefMaster anywhere. The built-in Fisheye lens allows you to closely approach your subject while still keeping everything in the picture. And with SeaLife's know-how in underwater lighting, you'll easily be able to pair your RM-4K with a variety of Sea Dragon Photo/Video lights for any underwater scene or situation. Capture vibrant 14mp still images and brilliant 4K video with an ultra-compact camera especially designed for the underwater environment. The ReefMaster RM-4K makes it possible. Waterproof to 130ft/40m, the ReefMaster RM-4K underwater camera is a game changer in underwater imaging; the housing is robust and designed to be hand-held, tray mounted or worn on your head, mask or body. Unlike cheaper plastic box-style enclosures included with popular action cameras, the unique ReefMaster Dive housing assures consistent waterproof performance with its "Pressure-Lock" sealing system.

SPORTDIVER UNDERWATER HOUSING FOR IPHONE

The SeaLife SportDiver underwater housing works with all iPhone® models 7, 7 Plus, 8, 8 Plus, X, Xr, Xs, Xs Max, 11, 11 Pro Max, SE (2nd Gen), 12, 12 Mini, 12 Pro and 12 Pro Max running iOS 13* or higher. The free SportDiver app captures photos and video directly to your iPhone's camera roll. The app also allows you to control advanced camera settings, like Zoom, Lens selection, Exposure, Focus, White Balance, Tint, RAW capture, Live Photo and Background Blur, as if you were using a more sophisticated underwater camera. The SportDiver offers fast and easy playback, and the clear back of the housing has a full unobstructed view of your screen and underwater environment.

The SportDiver offers unique visual and audible protection features for your phone, including a vacuum pressure alarm that checks the waterproof seal integrity before your dive and a moisture sensor that alerts you in the unlikely event a leak is detected. We've produced over 20 generations of underwater cameras and housings, and SeaLife brings a wealth of experience with the design and performance of the SportDiver.

- Works with iPhone® 7 and up
- Large shutter & control buttons for easy operation
- Dual leak alarms continuously monitor waterproof seal
- SeaLife SportDiver app with auto & manual controls
- Bluetooth® wireless technology controls camera
- Depth rated to 130ft / 40m
- Includes external underwater color-correction filter

SEA DRAGON 2000F

The new Sea Dragon 2000F Photo/Video Light delivers 2000 true lumens and a smooth, even 120° wide beam angle. This revolutionary COB LED technology produces an 80 CRI (color rendering index) that mimics natural daylight. Most other LEDs have 70 CRI, missing wavelengths of the visible light spectrum. Uncover colorful reefs and hidden sea creatures with this photo/video light. Includes Flex-Connect Micro tray and grip.

REF	DESIGNATION	RETAIL
SL677	Sea Dragon 2000F COB LED Photo-Video Light Kit (Includes Grip, Single Tray, Sea Dragon Case)	11,700 THB
SL6770	Sea Dragon 2000F COB LED Photo-Video Light Head (Includes Light Head, Battery & Charger)	10,000 THB

SEA DRAGON 2500F

The Sea Dragon 2500F uses flat panel COB LED technology to closely mimic natural sunlight, bringing out amazing colors in underwater photos and videos.

With a Color Rendering Index of 90, the Sea Dragon 2500F solves the issue of blue underwater photos and videos by giving divers the ability to add light down to 200 feet/60 meters with portable sunlight.

REF	DESIGNATION	RETAIL
SL671	Sea Dragon 2500F COB LED Photo-Video Light Kit (Includes Grip, Single Tray, Sea Dragon Case)	13,600 THB
SL6712	Sea Dragon 2500F COB LED Photo-Video Light Head (Includes Light Head, Battery & Charger)	11,900 THB

SEA DRAGON 3000F AUTO

The Sea Dragon 3000F Auto delivers 3000 lumens over 120° smooth, even beam angle without a hot spot. Two red LEDs emit a 88° wide "stealth mode" beam that won't scare away nighttime sea creatures and preserves your eye's natural night vision. Powered by a rechargeable 25Wh lithium ion battery, the light burns for a full hour at 100% power at

constant brightness with its new COB LED 120° beam angle. Depth rated to 330ft / 100m.

The Sea Dragon 3000F Auto includes a Flex-Connect Grip and single tray. Easily expandable with Flex-Connect Grips, Arms, and Trays.

REF	DESIGNATION	RETAIL
SL678	Sea Dragon 3000F Auto COB LED Photo-Video Light Kit (Includes Grip, Single Tray, Sea Dragon Case)	16,000 THB
SL6780	Sea Dragon 3000F Auto COB LED Photo-Video Light Head (Includes Light Head, Battery & Charger)	14,300 THB

SeaLife**SEA DRAGON 4500F AUTO**

The Sea Dragon 4500F Auto is a high power professional underwater imaging light that not only gives you brightness but also adds color and warmth, all with a smooth, even 120° wide beam that runs 50 minutes at the highest power setting. The 4500 lumen COB LED delivers an impressive 96 CRI and TLCI value of 97. Both values compare to natural sunlight, with 100 being the highest – or as “true sunlight”. Four manual power settings, plus an automatic brightness setting based on distance to the subject.

Includes Standard YS Mount , 1" Ball Mount, & Flex-Connect YS Adapter

REF	DESIGNATION	RETAIL
SL675	Sea Dragon 4500F Auto COB LED Photo-Video Light Head (Includes YS Mount, 1" Ball Joint Adapter, Battery & Charger)	24,000 THB

**SeaLife****SEA DRAGON UNIVERSAL FLASH**

Universally compatible with SeaLife and most other cameras using an internal flash, the Sea Dragon Flash feature variable power adjustment and large controls to easily fine tune brightness.

In Auto Mode, the flash will automatically adjust brightness for optimal exposure. The Sea Dragon Flash automatically “learns” your camera’s preflash.

Includes optical cable, 7mm cable plug, universal flash link adapter, diffuser, single tray, grip and case.

REF	DESIGNATION	RETAIL
SL963	Sea Dragon Universal Flash (Includes diffuser, optical cable, 7mm & Universal optical cable adapters, spare Orings, lube, O-ring removal tool, Grip, Single Tray, Sea Dragon case)	13,500 THB

**SeaLife****SEA DRAGON DUO FLASH SET 2X**

The Sea Dragon Duo Flash underwater lighting set includes two Sea Dragon Flashes, Flex-Connect Dual Tray and Grips – providing powerful lighting to bring out amazingly bright colors in your underwater photos. Reducing backscatter and eliminating shadows with twice the brightness, the Duo Flash is universally compatible with all underwater cameras with an internal flash and standard tripod mount.

- Universal underwater flash
- Variable power adjustment
- Effective UW distance range up to 8ft/2.5m
- Auto Learn Mode easily syncs pre-flash
- Depth rated to 200 feet/60 meters

REF	DESIGNATION	RETAIL
SL988	Sea Dragon Duo Flash Set (2x Sea Dragon Flash, 2x Grips, Dual Tray, Duo Case)	24,000 THB

**SeaLife****SEA DRAGON DUO 3000F SET**

The Sea Dragon Duo 3000 Flash underwater lighting set includes the Sea Dragon 3000F Auto Photo/Video Light, Sea Dragon Flash, Flex-Connect Dual Tray and Grips – providing versatility for shooting colorful photos or videos. The best still images are shot with a Flash, and the Sea Dragon strobe auto-learns your camera’s pre-flash instantly. The Duo 3000 Flash set also includes a Sea Dragon 3000F Auto, which offers Auto Flash Detect Mode – a feature that turns the 3000 lumen light off for one second while your flash is being fired and the camera is capturing a still image. Auto Flash Detect helps eliminate undesirable shadows, color shifts or backscatter. An additional feature of the 3000F Auto light is the Auto Bright Mode which automatically dims the light based on the proximity of the light and subject.

- Two Powerful 3000 lumen LED lights
- 3 brightness modes
- 120° wide beam angle
- Depth rated to 330ft / 100m
- Corrosion-proof light heads
- Removable 25Wh 3400 mAh Li-Ion battery

REF	DESIGNATION	RETAIL

AQUALUNG EXPLORER II ROLLER

This rolling luggage accommodates a full dive kit and all your other travel gear. Designed especially for scuba, it has side pockets that will fit our larger fins like the Aqua Lung X-Large Phazer. Coordinates with the rest of our Explorer II Collection of bags.

- Easy to Transport: Rugged wheels get you through the airport easily. Lightweight, extendable aluminum handle. Top handle for lifting.
- Designed for Scuba: Side pockets to fit even the largest of fins.
- Protective: Internal frame structure is designed to rebound and be shock-absorbent. The V-diamond base, skid rails and eight corner guards keep your gear safe from the airport bag handlers. Zippers accommodate locks.
- Durable: Heavy-duty 1680D polyester exterior material is lined with an abrasion resistant PVC-coated. Zippers are corrosion-resistant and zipper pulls are easy to grip. Two-year limited warranty.
- Stow More: Exterior and interior pockets for organizing your gear, clothes, and other essentials.
- Size: 29 x 20 x 13" (73 x 51 x 33cm)
- Weight: 9.5lbs (4.4kg)

NEW 2021

AQUALUNG EXPLORER II DUFFPACK

With its carry-on size, stowaway backpack straps, and mesh drying pocket, this is the most versatile dive pack on the market today. It's designed especially for scuba, with fin straps that hold any size fin. Part of the complete line of Explorer bags to get you completely outfitted for dive travel.

- Durable: Made of heavy-duty, 1680D polyester and mesh. Zippers are corrosion-resistant and zipper pulls are easy to grip. Two-year limited warranty.
- Convertible: Adjustable shoulder straps double as duffel handles.
- Designed for Scuba: Dry your wet accessories while you travel in the duffel's mesh drying pocket. Fin straps on the back of the bag hold any size fin. Protective Internal padding gives the bag shape and protects your gear. Protective V-diamond base and six corner guards. Zippers accommodate locks.
- Stow More: Also sports a smaller sunglasses pocket and two exterior pockets.
- Size: 24 x 13 x 9" (61 x 33 x 23cm)
- Weight: 3.5lbs (1.5kg)

AQUALUNG ADVENTURER MESH DUFFLE

Need a bag to store your gear between dive trips? Tired of wheeling your fancy travel luggage full of dive gear to the beach? Have an unorganized rental locker? The Aqua Lung ADVENTURER Mesh Bag is the perfect solution. Whether it's used to differentiate kit sizes in a dive locker, brought on a trip to leave your luggage in the hotel or just to keep your gear packed neatly away, the ADVENTURER Mesh Bag is up to the task.

- Durable: Made of heavy-duty, 1680D polyester and collapsible mesh. Zippers are corrosion-resistant and zipper pulls are easy to grip. Two-year limited warranty.
- Designed for Scuba: The soft polyester mesh body folds down to the size of a sweatshirt for easy packing and travel. The large size accommodates any sized dive kit. The mesh body allows you to easily rinse your whole kit and let it dry while on the go. The removeable padded shoulder strap makes hauling your gear a breeze.
- Customizable: The Aqua Lung logo is printed on one end and one side. The remaining end and side are blank for you to customize.
- Size: 33 x 14" diameter (84 x 36cm)
- Weight: 1.25lbs (0.6 kg)

AQUALUNG ARGONAUT TITANIUM

Working in conjunction with the world's premiere maritime commandos, Aqua Lung has designed and developed The Argonaut Dive Knives. These knives are 9.75" long and made of a single piece of 4mm, highly rust resistant, Titanium. After the blade is cut and ground to the correct shape, the metal is blackened with an EDP coating then sharpened. The handle is wrapped with 7 feet of 5mm Nylon Paracord and the sheath is made from 2mm thick thermoformed aircraft grade Kydex. When everything is assembled, the logos are laser etched into the knife and sheath.

ARGONAUT TI BLUNT TIP ARGONAUT TI SPARTAN TIP

- Blade and Handle are made of 4mm thick, high rust resistant Titanium.
- The handle is double wrapped in 5mm paracord.
- The blade is 4 7/8" (12.38cm) long and the handle is 4 7/8" (12.38cm)
- The butt of the handle comes to a point for hammer-ing, braking and crushing.
- Comes with 2 rubber leg straps.

SeaLife® SEA DRAGON MINI FLUORO

The Sea Dragon Mini Fluoro Underwater Fluoro Light's royal blue LED emits a blue light combined with a finely tuned and proprietary dichroic filter that pinpoints the exact light wavelength to get the highest energy response from the underwater plant or creature for an amazing underwater light show. The light functions are easy, with simple one handed operation and three Fluoro power levels. And to eliminate any excess blue light, a yellow barrier mask filter is included. Runs on two CR123 or a single rechargeable 18650 Li battery (batteries not included).

- CREE XT-E Royal Blue LED with Integrated Dichroic filter
- 7 watt/m² brightness at full power, 4.3 W/m² at medium and 2.1 W/m² at low power
- 14° beam angle above water and 10.5° underwater
- 120 minute run time (full power); up to 8 hours at low power (using 3500mAh Li battery)
- Depth rated to 330ft / 100m

REF	DESIGNATION	RETAIL
SL655	Sea Dragon Mini Fluoro Light & Mask Filter (Includes lanyard with BC clip; batteries not included)	5,300 THB

SPARE AIR

The preferred choice of instructors and for shallow depth. The smallest portable air source in the world! A complete scuba system (regulator, tank and pressure indicator) that's the size of a can of cola.

- 6.0/3.0/1.7 cubic feet of air
- Tank finish in Black for safety
- Easily refills from your own SCUBA tank with included refill adapter (patent pending)
- Easily attaches to your BC with included holster and safety leash
- Small, hands-free, nearly neutrally buoyant
- Breathe on demand regulator -No complicated instructions
- Completely redundant back-up miniature SCUBA system
- Faster than buddy breathing and easier than an octopus

SPHERA X

The New SPHERA X is the next generation SPHERA, the number one Freediving mask by Aqua Lung. The unique distortion-free lens technology provides a 180 degree wide-angle field of vision and let the user experience a panoramic vision that's pure freedom for the eyes. Over many years of legacy for the SPHERA, Aqua Lung's design team carefully studied the specifics of freediving equipment and researched the optimization for this low-volume mask. With the input of professional free divers, successful technologies used in other Aqua Lung masks have been used and combined with the most suitable skirt shapes and frame characteristics.

For 2020, Aqua Lung is proud to introduce a total new SPHERA X mask that features a new silicone skirt material and shape geometry, an attractive lightweight frame structure and an easy-to-adjust micro buckle system.

The SPHERA X comes in a heavy-duty zippered EVA Case, not only to protect the Plexisol® lenses but also to reduce PVC plastics waste.

- 180° distortion-free panoramic vision thanks to the exclusive Curved Lens Technology
- Plexisol® lenses with special anti-fog and anti-scratch benefits
- UVA/UVB protection
- Advanced Fit Technology (AFT) enhancing the sealing features of the silicone skirt, improving fit, comfort and feel
- Easy adjustable buckle system
- An innovatively shaped strap better forms to the diver's head, increasing comfort and provides a more secure fit
- Attractive heavy-duty EVA box with corrosion free zipper.

REF	DESIGNATION	RETAIL
MS4700101	Sphera X, All black	2,450 THB
MS4700404	Sphera X, Navy Blue Skirt / Navy Blue	2,450 THB

UMBERTO PELLIZZARI

- New mask designed with freediving legend Umberto Pelizzari to create the worlds most innovative freediving mask.
- This mask has a very low internal volume, gives extreme comfort and an excellent field of vision due to its innovative lens design.
- The mask nose piece has also been designed to accomodate nose clips with ease for professional freedivers.

REF	DESIGNATION	RETAIL
MSOM01B	Umberto Pelizzari UP-M1 Black	2,540 THB
MSOM02B	Umberto Pelizzari UP-M1W White	2,540 THB
MSOM02Y	Umberto Pelizzari UP-M1Y Yellow	2,540 THB

ZERO3

Freediving mask with an exclusive look created in cooperation with MOMO Design. Main features of this mask are the field of vision, which is almost the same you have without wearing a mask, and the very low internal volume. The mask skirt, features a some milled surfaces that prevent refraction of sunlight and ease compensation (gloves don't slip when you hold the nose). Available in black and in 2 new mimetic versions.

REF	DESIGNATION	RETAIL
OMM603NCF	Zero3 Mask - Black / Black	2,260 THB

ALIEN

- Specific freediving mask with low internal volume.
- Buckles are positioned directly on the skirt, reducing the total weight of the mask and allowing greater hydrodynamics.

REF	DESIGNATION	RETAIL
MSOM602NCF	Alien mask Omersub - Black / Black	1,490 THB
MSOM01003D	Alien mask Camu 3D	1,790 THB

FAOM050G45	Spitfire Kelp transparent green blade size 45/46	6,230 THB

STINGRAY EVO

The Omer Stingray Fins footpockets are characterized by their thermo rubber foot-pocket and for the angle between foot-pocket and removable blade being 22 degrees (compared to traditional 15/17 degree). The use of thermo rubber of two different stiffness compounds is to increase comfort over normal foot-pockets. The 22-degree angle is the result of trying to optimize the power of the push through the water, relative to effort. The blades are produced in a low modular polypropylene black (medium hardness).

Blades, Footpocket, and Mounting Hardware can be bought separately, in case the user wants to install carbon, fiberglass, or other blade types to the Stingray Footpocket.

- Features:
- Removable blade
- 22-degree blade angle
- Medium Stiffness

REF	DESIGNATION	RETAIL
FAOM060035	Stingray Evo fins pair size 35/36	6,600 THB

STINGRAY DUAL CARBON

Stingray Dual Carbon fins feature 100% carbon fiber blades reinforced at stress points of traditional blades. The fin design is rounded off with a very comfortable thermorubber foot pocket.

- Stingray dual hardness foot pocket is extremely comfortable
- Carbon Fiber blade produced by a Infusion Double Vacuum process producing one of the most durable Carbon Fiber blades available
- Omer modular design means blades are interchangeable
- Available in 5 sizes!

Features :

- Blade Material: Carbon Fiber
- Blade Length: 57.5 cm (22.6 inches)
- Blade Angle: 22 degrees
- Blade Stiffness: Medium/Soft

TROOPER LX & BONITA LX COMBO

Loaded with extra features, the Trooper mask and snorkel provides maximum comfort in the water. The silicone skirt on the mask ensures a leak-free fit, while the soft silicone mouthpiece is easy to hold in place, reducing any unwanted jaw fatigue. Enjoy see the amazing fish and coral reefs without any stress or discomfort.

The Bonita Set has everything you need for your next snorkel adventure. With small, yet powerful fins, the Bonita can easily fit in your backpack or suitcase for travel. With a skirt-size especially designed for women, the mask provides a comfortable and leak-free fit.

TROOPER LX Mask

- The two-window mask offers a leak-free experience with extended top to bottom visibility so you can enjoy your underwater experience
- The hypoallergenic silicone face skirt provides ultimate comfort and a perfect fit to keep water out of the mask
- Durable tempered glass lenses
- The three-way adjustable Pro-Glide buckles provide a secure and adjustable fit

BONITA LX Mask

AQUA LUNG[®] SPORT VERSA COMBO

Our newest and most innovative mask to-date: the Versa snorkeling set. With a single curved 180-degree lens, the Versa mask opens up the underwater world for an amazing snorkeling experience.

Stylish but functional details like the easy-adjust head strap provide a super comfortable fit and prevent any painful hair tangles in rubber straps. The hypoallergenic Silicone face skirt gives you a soft, comfortable fit that keeps water out so you can enjoy the aquatic scenery. The Versa snorkeling set is the best in its category.

Versa Mask

- The curved lens creates a 180° panoramic view with minimal distortion
- Soft silicone skirt for ultimate comfort and a leak-free fit
- Shatter-resistant anti-fog lens for durability and maximum clarity
- Designed to universally fit all face types
- Super lightweight for long-lasting comfort and easy portability
- Elastic fabric strap with easy-adjust buckle keeps the mask in place and eliminates hair pulling

Snorkel

- Splashguard top prevents surface water from entering the snorkel
- Ergonomic silicone mouthpiece provides comfort and minimizes jaw fatigue
- A one-way purge valve allows for easy clearing of excess water

AQUA LUNG[®] HOODED JACKET AQUA LUNG

Stay warm on the dive boat or protected from the sun in this SPF 50+ specially designed hooded jacket. Quick-drying nylon-spandex material adds warmth and wind protection. A hood keeps hair out of your face and provides relief from the elements.

Cut & Style

Zip Pockets

- Keep belongings secure on deck with zip pockets

Color-Fast

- 80% polyester/20% spandex helps keep colors bright, even in salt, sun, and chlorine

Comfort

UV Protection

- SPF 50 keeps you protected while snorkeling, on the dive boat, or otherwise spending time at the surface

Stretch

- Enjoy full range of motion and move quickly in tight quarters without binding or aggravation

Snug Edges

- Stretchy hood and cinch hem help the jacket fit easily over other layers, keep it in place, and guard against the elements

AQUA LUNG[®] LOOSE FIT RASHGUARDS

Aqua Lung's collection of Loose Fit rashguards are designed to fit comfortably just like your favorite T-shirt and can be worn in & out of the water. They dry quickly, protect your skin from the sun's UV rays and act as a guard against stings and scratches. Aqua Lung recommends wearing a rashguard under your wetsuit for added comfort while diving or after a dive to protect from the wind.

- The rashguards are SPF 50 and have been tested under Australian / New Zealand Standard AZ/NZ 4399, which are the highest and most respected standards in the industry.
- The Aqua Lung rashguard material is made from 80% nylon / 20% spandex
- The patterns and colors match the Aqua Lung Hydroflex wetsuits.

AQUA LUNG[®] FIRST TO DIVE RASHGUARD

SPORT

Aqua Lung's latest sportswear rash guards protect both; skin and the reefs. Due to not having to use sunscreen chemicals, wearing an Aqua Lung sportswear rash guard during a surface interval or after a dive creates a perfect symbiosis between style and protecting the environment. The fabric mix used for the Aqua Lung Sportswear rash guards is both stretchy and capable of blocking UV rays. The integrated underarm mesh panel create fresh air circulation and keep the body cool.

- The Aqua Lung rash guard body fabric is 80 % polyester and 20 % elastane
- The under-arm mesh panels provide optimal air circulation and keep cool
- All the Aqua Lung rash guard body material provides UV protection of SPF50+, enough to protect from a sunburn but still comfortable to be worn on bare skin.
